

API Endpoint Plan

The API will be structured to support the functionalities required by both Organisers and Participants. Below is a detailed plan for the endpoints:

Authentication

- **POST /api/auth/register:** Register a new user (Organiser or Participant).
- **POST /api/auth/login:** Log in a registered user.
- **GET /api/auth/logout:** Log out the current user.

User Profile

- **GET /api/users/profile:** View the logged-in user's profile.
- **PUT /api/users/profile:** Update the logged-in user's profile.

Events

- **GET /api/events:** Retrieve a list of all events.
- **GET /api/events/{event_id}:** Retrieve details of a specific event.
- **POST /api/events:** Create a new event (Organiser only).
- **PUT /api/events/{event_id}:** Update an existing event (Organiser only).
- **DELETE /api/events/{event_id}:** Delete an event (Organiser only)

Categories

- **GET /api/categories:** Retrieve a list of all categories.
- **POST /api/events/{event_id}/categories:** Create a new category for an event (Organiser only).
- **PUT /api/categories/{category_id}:** Update a category (Organiser only).
- **DELETE /api/categories/{category_id}:** Delete a category (Organiser only).

Event Enrolments

- **POST /api/enrolments:** Enrol a participant in an event and select a category.
- **GET /api/enrolments:** Retrieve all enrolments for the logged-in participant.
- **GET /api/events/{event_id}/enrolments:** View enrolments for a specific event (Organiser only).

Results

- **POST /api/results:** Capture finish time and position for an enrolment (Organiser only).
- **GET /api/results:** Retrieve results for the logged-in participant.
